Sacramento, CA 95811

**Re: Del Rio Trail Environmental Impact Report (EIR)**

Dear Mr. Buford: I am a South Land Park resident and I **support** the City’s EIR and plan to design the Del Rio Trail so that it will become an asset for both the local neighborhood and the City of Sacramento at large. Specifically:

- I support as much separated bicycle and pedestrian path as space allows, including using preserved rails as a pedestrian path.
- I support the Trail corridor becoming an urban greenbelt, including retention and planting of trees and shrubs, and inclusion of amenities such as benches, picnic tables, and a community garden.
- I support a design that recognizes the railway’s contribution to Sacramento's history, but not at the expense of a safe path and trail for pedestrians and cyclists.
- I oppose re- designing the Trail around the return of train traffic because the return of trains will cause significant negative impacts that cannot be mitigated, and running trains on this section of tracks was recently rejected by State Parks, which would operate the train.
- I oppose maintaining the railroad tracks in a condition designed for train traffic because that will decrease the quality and utility of the Trail and greenbelt for no purpose.
